

CLEARLY UNSURPASSED

Fits all size door opening

Available in Standard Low-Temp (USDA), Ribbed and Reinforced PVC

Provides excellent climate control

Large selection of strip material to suit almost any application

Unsurpassed visibility for maximum safety in high traffic areas

Helps control and isolate noise between areas of plant activity

PVC Product comes in rolls, pre-cut strips and cut to size for door openings

SERIES 9010

CLEAR FLEXIBLE STRIP CURTAINS

Designed for any size door opening, the Super Seal "Clear Strip" is the most economical way to close a door opening. The clear flexible strips provide unsurpassed visibility for safety in high traffic areas. The edges of the strips are rounded to avoid the danger of being cut, concave-convex overlapping pattern enhances the sealing effect. The "Clear Strip" is the universal low cost enclosure that reduces heat and refrigeration costs, minimizes energy consumption, provides noise control, and increases employee comfort. The "Clear Strip" provides excellent visibility for oncoming traffic and thus increasing personnel safety. Clear Strip curtains help increase productivity by increasing personnel safety and thus help decrease energy and production costs.
